

Pantheon Days

This will be an app that can be used in classes and museums to allow people to look into the past and see this mighty monument of the Parthenon both in modern day Greece and ancient Greece. It will give historians an opportunity to see the transition that this architecture had through time.

Features:

- It will have a slider that would allow the user to see the degradation of time on the parthenon but also it the user to see the Parthenon when it was originally built.
- It can allow the user to zoom up on parts of the Parthenon and look at the finer details of the Parthenon.
- You can also enter the Parthenon and see inside of the Parthenon
- You have the options to click on statues in the Parthenon and have text appear letting the user know the story behind those statues
